Our 300-hour Advanced Teacher Training Program is for those students who have successfully completed a 200-hour program, wish to deepen their knowledge above the 200hr. level and/or are serious about a career in yoga teaching. The 300-hour Program consists of two major contact modules: **In-Training Hours** and the **Apprenticeship**, and one non-contact module: **Personal Teaching and Study**.

- The **In-Training Hours** include approximately 180 hours learning and practicing with your training group, studying detailed theory and hands-on teaching and application of advanced techniques in asana, pranayama and meditation. In addition to thorough techniques practice, the In-Training curriculum includes advanced study in injury management and therapeutic yoga; hands-on adjusting; the business and ethics of yoga teaching; and in-depth study of ISHTA specialty material such as Advanced Applications of Ayurveda to Asana and Meditation, Advanced Tantric philosophy and more.
- The **Apprenticeship** is a 6-12 month, 50-70-hour program consisting of: Class, retreat, and/or teacher training assisting (c. 50 hrs.), an incredible opportunity to learn from and assist a senior ISHTA teacher; Mentor meetings (10-12 hrs.), smaller group meetings to refine your skills in teaching advanced techniques and get personalized feedback and support from trainer and peers; One-on-Ones and In-Class Privates (25hrs.), where you will develop your skills in teaching individual students fine-tune your abilities in hands-on assisting and personal adjustments.

What makes the ISHTA 300-hour Advanced Program unique?

ISHTA Yoga explores the Integrated Science of Hatha, Tantra and Ayurveda for a unique perspective on the pillars of holistic yoga practice for body, mind and spirit. Our 300-hour curriculum, as designed under Kavi Yogiraj Alan Finger's guidance, offers many advanced techniques that are not taught elsewhere. Our further goal is to pass on not just these rarely disseminated techniques, but also the special fusion of Tantric and modern sensibility that makes true ISHTA teaching unique and remarkable. Advanced ISHTA training grounds the trainee in the ISHTA perspective, which supports individual development, recognizes the uniqueness of the individual and integrates all aspects of ancient yoga and modern living into a unique and seamless practice of technique, philosophy and joy.

I am already teaching / I have already completed a 200-hour Training. Why do I need this program?

We believe the art and science of yoga is a lifetime study. We never stop learning and there is always room to refine your teaching. In our experience, most 200-hour certified trainees are not yet fully prepared to teach as they have not yet learned or refined all their skills; and even experienced teachers are always looking for new insights, tools and techniques. The ISHTA program in particular offers a wealth of knowledge on ALL aspects of yoga that we truly feel is enriching and unique!

Who may apply to the 300-hour program?

The 300-hour program is a significant commitment of time and energy. Any serious student who has successfully completed a 200-hour Yoga-Alliance registered program and is committed to yoga as a career and/or way of life is encouraged to apply. Space in the program is limited and all applicants are subject to review and / or mentor approval.

300 Hour Advanced Teacher Training Frequently Asked Questions

I received my 200-hour certification from another school. Can I take the 300-hour ISHTA training without having completed the 200-hour ISHTA program?

Yes! We invite you to explore ISHTA. Advanced trainees joining the program from an outside school are required to take our "Bridge" program, consisting of reading and written assignments and approximately 28 hours of audited lectures from the 200-hour program. (Additional Bridge module fees apply.)

I am a serious practitioner, but I am not able to do all advanced postures. Can I apply?

Absolutely. Yoga is an individual practice and the path takes many physical forms. We expect and welcome different levels of physical ability. Your commitment to deepening your yoga is the true requirement.

Is attendance in all the sessions mandatory to receive the ISHTA Certification and be able to register with Yoga Alliance as a certified teacher? What if I have to miss a session?

100% attendance is required to successfully complete your training; however, makeups for missed sessions are possible. If you know in advance you will have to miss a session for any reason, and you would like to receive Certification, you will need to make arrangements with an ISHTA trainer to make up the missed sessions at your cost. Detailed make-up procedures are provided upon enrollment; ask if you have questions.

How do I receive my certification and register with Yoga Alliance?

Once you have successfully completed all requirements of the training (100% In-Training attendance or completed make-ups, 100% completion of Apprenticeship module, 100% completion and passing grade on Personal Study module requirements, successful evaluation on final practical exam), you will receive a graduation certificate and the necessary paperwork to register with Yoga Alliance. Please note that 100 hours of teaching time are required by Yoga Alliance in conjunction with your 300-hour certificate in order to register at the 500-hour level. More information about Yoga Alliance registration is available at www.yogaalliance.org.

300 Hour Advanced Teacher Training Frequently Asked Questions

What is Class Assisting?

300-hour trainees commit to assisting a weekly class with an ISHTA trainer for 3-6 months. (**Note:** If this weekly commitment is not possible for you, this module may be completed by assisting retreats and trainings.) You will begin your assisting journey by acting as a model / demonstrator, which is not only tremendously beneficial to the class teacher and students, but will also deepen your own practice, your comfort level showing poses in front of a group class, and your awareness of your own practice and body as a teaching tool. As you build your hands-on assisting skills, you will “graduate” to assisting your teacher in giving hands-on adjustments to the class students. This is an invaluable experience in refining your teaching eye and hands and building experience working with students, learning their bodies and gaining their trust.

Do I have to be teaching or committed to becoming a yoga teacher to take the 300-Hour Program?

Not at all. While many 300-hour trainees choose this path, many trainees take the program to further their own personal yoga knowledge and study. We recommend you simply follow your desire to learn and let your own path evolve from there.
